MNIST Dataset

Noisy MNIST Dataset

Figura: Imagens do MNIST e Noisy MNIST. Ruído Gaussiano com 0.3 de desvio padrão.

Modelo

1 Denoising Autoencoder

- Input: imagens 28x28x1 (Noisy MNIST)
- Encoder:
 - 3 Camadas Convolucionais (Kernel 3x3 e Stride 1)
 - BatchNorm
 - ReLU
 - MaxPooling(Kernel 2x2, Stride 2)
- Decoder:
 - 2 Camadas Convolucionais T. (Kernel 3x3 e Stride 2)
 - BatchNorm
 - ReLU
 - Camada Convolutacional T. Final (Kernel 3x3, Stride 1)
- 4/6 — Sigmoid

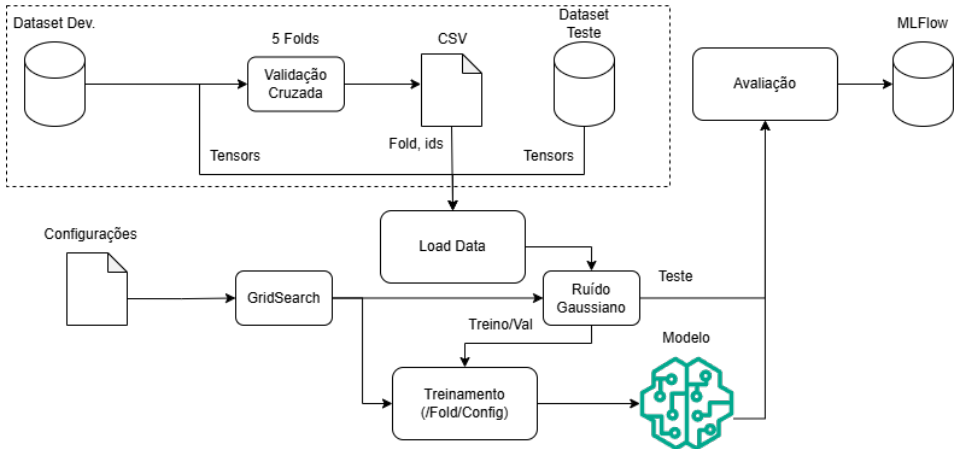

Denoising Autoencoder Architecture

Metodologia

1 Denoising Autoencoder
